

Prep tool for LMR-400 crimp clamp style connectors

CST-400

Description

Pasternack's CST-400 from Times Microwave is a cable stripping tool that allows stripping preparation of LMR-400 cable types. This stripping tool can be used for both crimp and clamp style connector to cable attachment methods. Pasternack's CST-400 cable stripping tool is designed as a lightweight and rugged prep tool that trims the jacket and dielectric with a sharp blade to ensure optimal performance of VSWR. The CST-400 tool trims the dielectric 0.21 inches and jacket 0.6 inches or 0.8 inches depending on connector attachment method, crimp or clamp. This tool also has a debur tool built in to eliminate the need for extra tooling. Pasternack's Prep tool for LMR-400 crimp clamp style connectors as well as prep tools for other LMR coax are in-stock and ships same day.

Configuration

| | |
|-----------------|-------------------|
| Description | LMR-400 Prep Tool |
