

## 7/16 DIN Male Right Angle to C Male Right Angle Cable Using RG393 Coax, LF Solder

### PE38548/LF

## Configuration

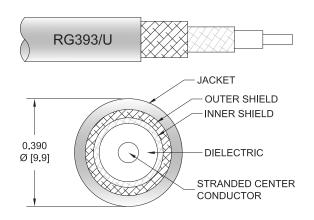

• Connector 1: 7/16 DIN Male Right Angle

· Connector 2: C Male Right Angle

· Cable Type: RG393 · Coax Flex Type: Flexible

### **Features**

- · Double Shielded
- FEP Jacket

## **Applications**

· General Purpose

· Laboratory Use

## **Description**

Pasternack's PE38548/LF 7/16 DIN male right angle to type C male right angle cable using RG393 coax is part of our full line of RF components available for same-day shipping. Pasternack's flexible RF cable assemblies are ideal for applications where tight bends and flexure are required. This Pasternack 7/16 DIN to type C cable assembly has a male to male gender configuration with 50 ohm flexible RG393 coax. The right angle 7/16 DIN and right angle type C interfaces on the RG393 cable allow for easier connections in tight spaces. The double shielding of this Pasternack cable assembly provides excellent shielding effectiveness.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.
