

6-Fiber LC UPC to LC UPC, OM5 Multimode Distribution Cable, 5.0mm Riser, 2.0mm breakout, Lime Green-15M

PE3FCA299-15M

Features

- 6X LC UPC to 6X LC UPC
- Indoor multimode OM5
- Riser (OFNR) rated cable
- 5.0mm with tight buffer and aramid yarn strength member
- 2mm TIA 598 color coded, .5M breakout
- Suitable for ceilings and riser areas

Applications

- Data centers
- Passive Optical Networks (PON)
- Local Area Networks (LAN)
- Enterprise Networking
- Storage and cloud based services
- AI data storage and communications
- Headend termination to a fiber backbone
- Terminations of data center fiber rack system

Description

High-performance fiber optic cable assemblies, including the PE3FCA299-15M from Pasternack, are designed for modern, high-speed network infrastructures and part of a large selection of same day ship cable assemblies. Whether deploying fiber optic distribution assemblies for enterprise networks, fiber optic breakout assemblies for seamless interconnectivity, or fiber optic patch cord assemblies for structured cabling, our solutions ensure durability and precision. Built for data centers, telecommunications, and industrial applications, our fiber optic distribution breakout assemblies deliver superior performance, ensuring optimal signal integrity and minimal loss.

The Pasternack PE3FCA299-15M indoor OM5 fiber optic distribution cable offers cutting-edge Wideband Multimode Fiber (WBMMF) technology, making it an ideal choice for next-generation networking. Supporting at least four WDM channels at 28Gbps per channel over the 850-953nm wavelength range, this 6 fiber assembly is optimized for shortwave Wavelength Division Multiplexing (SWDM). It features LC UPC to LC UPC connectors, a lime green Riser (OFNR) jacket, and a tight buffered aramid yarn construction for enhanced durability.

With a bandwidth of 28000MHz·km, Pasternack's PE3FCA299-15M OM5 fiber optic cable assembly provides high-speed, high-density connectivity for cloud computing, data centers, and 400G Ethernet applications. The 5.0mm overall diameter, 2.0mm breakout diameter, and 37.5mm (7.5D) minimum bend radius offer flexible installation options, while the -20°C to 70°C operating temperature ensures consistent performance in demanding network environments. Engineered for indoor high-speed deployments, this fiber optic assembly guarantees reliability and superior signal integrity. For further information on similar products, our expert technical support and trained sales team can get you the ideal fiber optic multi-fiber cable assembly as per your requirements.

Configuration

| | |
|---------------------|-------------------|
| Function | Breakout |
| Cable Type | 6 Fiber Multimode |
| Mode | Multimode |
| Mode Class | OM5 |
| Fiber Diameter | 50/125 um |
| Connection 1 Type | LC |
| Connection 1 Polish | UPC |
| Connection 2 Type | LC |
| Connection 2 Polish | UPC |
| Cable Color | Lime Green |

Optical Specifications
