Description

Pasternack's PE3W01725-SP1-200CM 75 ohm BNC female bulkhead to 75 ohm MCX plug push-on right angle 200 cm cable using 75 ohm RG179 coax is part of our full line of RF components available for same-day shipping. Pasternack's flexible RF cable assemblies are ideal for applications where tight bends and flexure are required. This Pasternack BNC to MCX cable assembly has a female to plug gender configuration with 75 ohm flexible RG179 coax. The PE3W01725-SP1-200CM BNC female to MCX plug cable assembly operates to 1 GHz. The right angle MCX interface on the RG179 cable allows for easier connections in tight spaces. Our RF cable assembly with BNC bulkhead interface allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.
