Description

Pasternack's PE3W09756 SMA male right angle to 7/16 DIN male cable using LMR-195-FR coax is part of our full line of RF components available for same-day shipping. Pasternack's flexible RF cable assemblies are ideal for applications where tight bends and flexure are required. This Pasternack SMA to 7/16 DIN cable assembly has a male to male gender configuration with 50 ohm flexible LMR-195-FR coax. The PE3W09756 SMA male to 7/16 DIN male cable assembly operates to 3 GHz. The right angle SMA interface on the LMR-195-FR cable allows for easier connections in tight spaces. The double shielding of this Pasternack cable assembly provides excellent shielding effectiveness of better than 90 dB.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.
