

2.4mm Female Field Replaceable Connector 4 Hole Flange Mount 0.02 inch Pin, .250 inch Hole Spacing with Metal Contact Ring

RF Connectors Technical Data Sheet

PE45617

Configuration

- 2.4mm Female Connector
- Straight Body Geometry

Features

- Max. Operating Frequency 50 GHz
- Excellent VSWR of 1.2:1

Applications

- General Purpose Test
- Rack and Panel Mount Applications
- Gold Plated Beryllium Copper Contact
 Metal Contact Ring

4 Hole Flange

Connector Interface Types: 0.02 inch Pin

- Used in Product Requiring Hermetic Seals
- Allows for Replacement of Damaged Connectors

Description

Pasternack's PE45617 2.4mm female 4 hole flange mount field replaceable connector is part of our full line of RF components available for same-day shipping. Our 2.4mm female connector operates up to a maximum frequency of 50 GHz and offers excellent VSWR of 1.2:1. This 2.4mm 4 hole flange connector allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications. This field replaceable connector is easy to install or replace in the field.

Our 2.4mm female 4 hole flange connector PE45617 datasheet specifications and drawing with dimensions are shown below in this PDF. Pasternack's broad catalog of RF, microwave and millimeter wave connectors allows designers to configure and customize their signal connections however they like. Whether the need is to provide an I/O for a board design, or simply create a custom cable assembly configuration, Pasternack has the right connector for the job. Pasternack can also expertly build your custom cable assemblies for you and ship same-day.

Electrical Specifications
