

Commercial Grade Bulkhead Mount N Female to N Female Bulkhead Mount Adapter

PE910050

Configuration

- N Female Connector 1
- N Female Connector 2
- 50 Ohms Impedance
- Commercial Grade Design
- Straight Body Geometry
- Bulkhead Mount Method

Features

- Gold Plated Brass Contact

Applications

- General Purpose Test
- Rack Mounted Equipment

Description

Pasternack's PE910050 bulkhead type N female to type N female bulkhead adapter is part of our full line of RF components available for same-day shipping. Our type N to type N adapter has a female to female gender configuration in a commercial grade design. PE910050 type N female to type N female adapter operates to 11 GHz. This RF type N bulkhead to type N bulkhead adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		11	GHz
Impedance		50		Ohms
Insertion Loss			0.15	dB
Dielectric Withstanding Voltage (DC)			1,500	

Mechanical Specifications

Size

Length	1.50 in [38.20 mm]
Width	0.87 in [22.00 mm]
Height	0.87 in [22.00 mm]
Weight	0.09 lbs [40.82 g]

Description	Connector 1	Connector 2
Polarity	Standard	Standard
