

Commercial Grade BNC Male to BNC Female Right Angle Adapter

PE910078

Configuration

- BNC Male Connector 1
- BNC Female Connector 2
- 50 Ohms Impedance
- Commercial Grade Design
- Right Angle Body Geometry

Features

- Gold Plated Brass Contact

Applications

- General Purpose Test

Description

Pasternack's PE910078 BNC male to BNC female right angle adapter is part of our full line of RF components available for same-day shipping. Our BNC to BNC adapter has a male to female gender configuration in a commercial grade design. This right angle BNC to BNC adapter allows for easier connections in tight spaces.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Impedance		50		Ohms

Mechanical Specifications

Size

Length	1.08 in [27.43 mm]
Width	1.01 in [25.65 mm]
