

SMA Male to TNC Male Adapter

RF Adapters Technical Data Sheet

PE9439

Configuration

- SMA Male Connector 1
- TNC Male Connector 2
- 50 Ohms
- Straight Body Geometry

Features

- Max VSWR of 1.25:1 up to 18 GHz
- SMA Interface compliant with MIL-C-39012
- TNC Interface compliant with MIL-C-39012
- Gold Plated Beryllium Copper Contact

Applications

- Allows Connection Between Series
- General Purpose Test

Description

Pasternack's PE9439 SMA male to TNC male adapter is part of our full line of RF components available for same-day shipping. The SMA connector mates mechanically with commercially available 3.5mm and 2.92mm (K) connectors. Our SMA to TNC adapter has a male to male gender configuration built of durable stainless steel. PE9439 SMA male to TNC male adapter operates to 18 GHz. The Pasternack RF adapter provides excellent VSWR of 1.25:1 maximum.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		18	GHz
VSWR			1.25:1
