

Infinite Electronics Quality Policy

At Infinite Electronics, our goal is to provide unparalleled customer service coupled with the highest quality products in the market. This is achieved through effective leadership, employee involvement, and focus on operational excellence with a commitment to continually improve organizational performance.

We will meet or surpass all customer expectations in the delivery and assembly of our products while fulfilling all governmental and regulatory requirements.

This commitment is the center of our corporate values and is essential to our continued success and growth.

Meeting our customers' expectations is vital to everything that we do.
