Description

Pasternack's PE3C7720-12 10-32 male right angle to SMP female push-on 12 inch cable using RG178 coax is part of our full line of RF components available for same-day shipping. Pasternack's flexible RF cable assemblies are ideal for applications where tight bends and flexure are required. This Pasternack 10-32 to SMP cable assembly has a male to female gender configuration with 50 ohm flexible RG178 coax. The PE3C7720-12 10-32 male to SMP female cable assembly operates to 3 GHz. The right angle 10-32 interface on the RG178 cable allows for easier connections in tight spaces.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.
