

BMB Size 8 D38999 Contact Socket to SMA Female Cable Using PE-P141 Coax with HeatShrink, LF Solder

PE3M0340

Configuration

- Connector 1: Push-on BMB Socket
- Connector 2: SMA Female
- Cable Type: PE-P141
- Coax Flex Type: Flexible

Features

- Max Frequency: 18 GHz
- Can be installed in all D38999 size 8 inserts
- Lot traceability
- High speed RF cable assembly

Applications

- Military and Aerospace
- Avionics
- Industrial Automation

Description

The PE3M0340 from Pasternack is a D38999 contact cable assembly that is built with a size 8 BMB socket contact on one end and a SMA female connector on the other. Pasternack MIL-DTL-38999 (also known as D38999 or 38999) coaxial cable assembly products are used in applications requiring high quality such as laboratory RF test and measurement, rugged and designed for defense/military, production environments, general use, etc. This BMB to SMA cable assembly is a part of one of the largest selections of same-day ship coaxial cables for RF, microwave, and millimeter wave interconnect solutions. This high frequency D38999 cable assembly operates at a maximum frequency of 18 GHz.

The RF cable has a FEP jacket of 0.163-inch diameter. This PE3M0340 radio frequency cable assembly can withstand temperatures ranging from -65 to 165 degrees C. Our BMB socket to SMA female cable has a maximum VSWR of 1.4:1. This flexible RF cable assembly with a 0.5-inch diameter has copper clad steel as the cable's inner conducting material and PTFE dielectric type.

BMB socket to SMA female cable assembly is built with PE-P141, which is a flexible coax type. The Pasternack PE3M0340 flexible cable assembly has a 50 Ohm impedance and is double shielded. Additional dimensions, specifications, and CAD drawings for this BMB to SMA RF cable are available on our downloadable PDF datasheet.

BMB socket to SMA female cable assembly is just one of more than one million in-stock RF products available. Pasternack is where to buy high quality custom RF cable assembly products for rugged and MIL-STD designed military/defense, aerospace, outdoor and harsh environment, microwave and millimeter wave radio transmitter receiver, component inter-connection and more for RF test & measurement labs, telecom, phase stable, phase and delay matching, and other radio frequency applications can be manufactured. Variations of BMB and SMA cable assemblies can also be built and will ship on the same day as well, search this website or contact us for assistance. For further information on similar products, our expert technical support and trained sales team can get you the ideal BMB to SMA RF cable assembly as per your requirements.
