

TNC Tee Adapter Male-Female-Female

RF Adapters Technical Data Sheet

PE9290

Configuration

- TNC Male Connector 1
- TNC Female Connector 2

- 50 Ohms
- Tee Body Geometry

Features

- TNC Interface compliant with MIL-STD-348
- Silver Plated Contact

- Contact Plating per QQ-S-365

Applications

- General Purpose Test

Description

Pasternack's PE9290 TNC tee adapter male-female-female is part of our full line of RF components available for same-day shipping. Our TNC tee adapter has a male-female-female gender configuration. Tee adapters (also called tee connectors) are three port devices that can be used to split or combine a signal. Unlike power dividers/combiners, however, they do not provide matched impedance at all ports.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications

Size

Length	1.575 in [40.01 mm]
Width	0.59 in [14.99 mm]
Height	1 in [25.4 mm]
Weight	0.061 lbs [27.67 g]

Description	Connector 1	Connector 2
Type	TNC Male	TNC Female
Polarity	Standard	Standard
Interface Specification	MIL-STD-348	MIL-STD-348
