

Non-Penetrating Antenna Roof Mount - Rubber Mat

TECHNICAL DATA SHEET

PENPMMAT

Features

- 3/16" thick high density rubber
- Placed directly on the roof
- Improves surface tension
- Reduces imprints or cuts to the roof surface
- Weather resistant for long-lasting performance

Applications

- Two (2) mats for peak roof mounts
- One (1) mat for flat roof mounts
- Can be used for ergonomics
- Protective layer between roof surface and mounts
- Protect surfaces from scratches, marring, or gouging

Description

The Pasternack's PENPMMAT non penetrating rubber mat provides maximum surface tension and surface protection. This NPM rubber mat is directly placed on the roof and it is available in a single pack. The rubber mat is 3/16 inches thick measuring 39 inches wide by 39 inches long. For flat roof mounting, one mat is required, whereas two mats are needed for peak roof mounts.

This non-penetrating antenna roof mount rubber mat can be used for ergonomic purposes. In order to prevent surfaces from being scratched, marred, or gouged, our rubber mat forms a protective layer between the roof surface and non-penetrating mounts. Our weather resistant, 3/16" thick, high density rubber mat provides long-lasting performance and reduces imprints or cuts to the roof surface.

Pasternack has one of the largest in-stock selection of non penetrating mount rubber mat for international and domestic orders. Make your online purchase right now to take advantage of our same-day shipping. For further information on similar products, our expert technical support and knowledgeable sales team can help you get the perfect NPM rubber mat for your requirements.
